AJ: "You can argue that the Bible is true and that [end time things] are starting to happen. Or you could argue that it's really good science fiction written, you know, in the last 2000 plus years - the New Testament. Old Testament - 3000 plus years, much of it. And that bad guys went and read it and said 'this is a great idea'. [laughs as clip ends]"

AJ: "Let me be clear. The globalists run a missionaria protectorate - to quote Frank Herbert. And has taken over Christianity in the last 200 years, and, and, and every Christian group who is being persecuted by Hitler, Stalin, or Mao thinks it's the end of the world, so why get involved because God's about to rapture us out. I have really studied this and, and, and, if you go back 2,700 years ago, near the collapse of Rome, when Christians were being persecuted, they thought it was the end of the world then. And the gnostics thought that too.

"I'm going to do the right thing regardless. But yeah, the mark of the beast, the cashless society - all of this happening - it's very, very pertinent. But I'll tell you what I see in the future.

"I think the fight against the mark of the beast is a fight to be human and not take the actual technology through the google glasses and other systems into your brain. Don't become a

wire-head that people like Philip K Dick wrote about years ago, where you can plug a wire into your head and give yourself unlimited pleasure and live in a false reality.

"Joining the devil means you join the false reality and the false virtual reality versus being a part of the real world and doing the right thing. It means buying into the illusion.

"I believe most of humanity in the next 50 years is going to become robotic, cyborg, biological androids, and are going to lose their humanity. But the people who transcend all of this, are going to inherit the Kingdom of Heaven. And that means all of God's promises that the ear has not heard, the eye has not seen - out of the universe.

"And so, I read the Bible more as a science-fiction handbook given to us by our creator, that transcends what men try to interpret it and put on it." [end of clip]

[on screen] Let's hear that again...

AJ: "You can argue that either the Bible is true and actually starting to happen, or you could argue that it's really good science fiction..."

AJ: "And so I read the Bible more as a science fiction handbook."

[on screen] What does Alex think about secret societies?

AJ: "On the whole mason thing. It does a massive disservice to just get up on air and say the mason are the illuminati and they are devil-worshippers, and they're going to kill you, and they're the ones doing everything. Because about half of our founding fathers were Scottish freemasons. Blue lodge people..." [clip ends and skips ahead]

AJ: "When you just come out and say masons are devil worshippers, then people who are 3rd degree master masons all the way up to 32nd degree, and of course the honorary degree of 33 - it actually goes above that. They don't know all of this. Yes, the illuminati has taken over masonry. You can argue where it came from - from the different branches of it. It pre-dates Christianity. It pre-dates Judaism. It pre-dates Islam. It is the old time religion. And it is, at it's base Luciferian..." [clip ends and skips ahead]

AJ: "And, a lot of my ancestors have been masons. You judge a tree by it's fruits. Now that said, one of my great-uncles told my Dad when he was a kid, don't join the masons. And he was a high-level mason - as high as you could get. Because so much organized crime uses the masonic secret system and the good ole boy network to be able to get away with murder. And I mean murder..." [clip ends and skips ahead]

AJ: "We do a dis-service by attacking fraternal organizations and things like that because then the masons and people get attacked and they think well we're just raising money for school kids - we're just helping in the community - we're just helping in this and that, how dare you say that about us. And then that discredits everything else we're talking about. So, that's where I stand on the masons. And I've gone over[time]. We've got over an hour and 10 minutes to take calls."

[on screen] JFK would disagree

[on screen] John F. Kennedy 1961 - <http://www.youtube.com/nuffrespect> "Ladies and gentleman, the very word secrecy is repugnant in a free and open society. And we are as a people, inherently and historically opposed to secret societies, to secret oaths, and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealing of pertinent facts far outweigh the dangers which are cited to justify it."
