Jerome Corsi was a candidate for the Presidential nomination of the Constitution Party in 2007. Mr. Corsi has written numerous articles for WorldNetDaily concerning establishment of global regional trading blocks such as the NAU and EU for world governance.

Congressman Duncan Hunter from California was a candidate for the Presidential nomination of the Republican Party until he withdrew in late January 2008. Duncan Hunter was Chairman of the House Armed Services Committee who presided over the funding for the development, construction and installation of the US ballistic missile defense system. Hunter was the original sponsor of legislation to build a border fence to limit and control illegal immigration. Hunter was an Army Ranger and paratrooper.

Major General Jerry Curry

Major General Jerry Curry was on the ballot in over 15 states for the Presidential nomination of the Republican Party in 2007 and remains a candidate in 2008. Like Duncan Hunter, General Curry was an Army Ranger and paratrooper. Curry's positions on issues listed on his campaign website closely parallel the positions taken by Duncan Hunter. Curry served in high-level positions of the Carter, Reagan and HW Bush administrations.

I have personally spoken to and corresponded with Jerome Corsi and General Curry about the agendas of elites to establish world government.

Corsi told me that he and others he associates with know that elites want to improperly and illegally use US missile defense to create the conditions to establish a world government.

General Curry wrote to me that the information I provided to him verbally and in writing "squares with the information that he has." The information that Curry is referring to includes not only using US missile defense to establish world government but also the deliberate non-enforcement of laws (for common crimes) against known Islamic terror organizations, members and leaders inside the US as a means to advance world government agendas of elites.

I also have spoken to and corresponded with Mr. "T," Duncan Hunter's closest advisor for over 25 years and the man who served as chairman of Hunter's Presidential campaign.

Mr. "T" discussed information with me concerning world government agendas very similar to the information that I have also discussed with and provided Jerome Corsi and General Curry. Mr. "T" also gave my statements, my information, my reports, my articles and my executive summaries (backed up by members of the FBI and the US intelligence community) to Duncan Hunter on this subject for Duncan Hunter's review.

Mr. "T" has assured me on several occasions that Hunter not only read my documentation forwarded to him by Mr. "T," but also that Duncan Hunter, and Mr. "T" agree with my conclusions. As Mr. "T" said, "We agree with you Pat."

Duncan Hunter's Washington DC Congressional chief of staff has also spoken to me and received some of the same information in written correspondence from me. Mr. "T" has helped me apply for a formal meeting with Congressman Hunter through his appointments secretary who I have also spoken to and corresponded with.

Here is a summary of the information that I have discussed with Corsi, Curry and Hunter that they have told me they agree with, that "squares" with what they say they know:

1. Missile defense has been illegally and intentionally subverted and compromised by US government officials to create the conditions to establish a world government. I directed them to my NewsWithViews article [US MISSILE DEFENSE, NUCLEAR TECHNOLOGIES TRANSFERRED TO RUSSIA, CHINA](#). This article documents that GW and HW Bush have attempted to transfer missile defense technology and command and control to the Russians and Chinese to establish conditions to create a world government going back to 1983 under Reagan (HW Bush was VP), increasing in 1991 under HW Bush, and accelerating under GW Bush from 2001 to the present time. I also cited to them the Secretary of Defense, Robert Gates, recent proposals to share US missile defense and command and control with the Communist Chinese's and Russians starting in 2007 and continuing into 2008.

2. Laws (even for common crimes) are intentionally not being enforced by Federal agencies against known Islamic terrorist individuals, leaders and organizations and illegal immigrants (some are collaborating) inside the US for over a decade. I noted that the intentional failure to enforce these laws is in itself a violation of the law. I also provided them documentation, executive summary, and specific recommendations on this including the report and recommendation that I wrote for the 9/11 Commission at the request of Speaker Dennis Hastert, "Counter Terrorism Antecedents for the 9/11 Attacks."

3. Communist China is the leading backer of Islamic terrorist groups, individuals and nations in the world today operating in the Western Hemisphere and inside the US. China is being intentionally allowed to operate 3000 know espionage front companies inside the US. The previous and current administrations, going back to HW Bush, have intentionally not adequately told the public about China's actions, collaborations and threats, have not addressed it by their

policy actions, and in fact have, by their actions and lack of actions, encouraged the Communist Chinese.

Condi Rice made a speech to the 2000 Republican Convention outlining why under GW Bush China would be allowed to go unchecked or even called out in public discourse about these matters. I heard the speech. Rice said the price we, the US, will pay for this policy is that we will become more like China, but what we will gain is that China will become more like us and help preserve world peace (and world government).

I have written this article so that Americans will now know that Jerome Corsi, Duncan Hunter and General Curry agreed with my information and conclusions regarding the agenda of the elites to establish world government to illegally transfer US missile defense and to intentionally not enforce existing laws against known Islamic terrorists and illegal immigrants inside the US.

I want the American people to know that I urged General Curry, Duncan Hunter and Jerome Corsi to personally tell the American people directly about these threats that are being used for world government agendas. I urged them to do this every chance they get and/or can create to afford the American people the ability to protect themselves, replace government officials and change policies for the better. I believe Americans have a right and a need to ask Corsi, Hunter and Curry to do more to fully inform them about these threats now that they have told me that they also know about and believe the threats to be real.

These men have told the public that they ran for the nomination of their parties to help protect America and provide for the security of their grandchildren. If they were sincere about this, then they should stay the course and continue to tell the American people about the threats they told me about and agreed with me on. In my opinion, they have a moral obligation to continue to do this even though they are no longer candidates for the nomination of President by their parties.
