

International News and Christian Prayer Update

Subject: 'Israel, Business Deals, and War on Terror' ~ 06-06-2010

** **Starting questions:**

Do you think Israel is occupying the Palestinian land?

Or do you know that Arabs are occupying Israel's land? **

**

Hello fellow prayer partners and pastors, and friends,

Thank you for joining us in praying for the honorable Jewish people in Israel and praying for genuine repentance in our country!

This report provides you with helpful and accurate news from many sources!. So many of our nation's news companies have strings that connect them to big oil, military and international money that forces them to report in favor of big oil and obviously

favoring the collective efforts to take more land from Israel, for their big oil drilling and pipeline projects, including the oil pipeline from Iraq to the Mediterranean Sea (through the Golan Heights) for the European Union. *

* Source: 'Why the Golan Squeeze?' ~ <http://www.rense.com/politics6/golans.htm> - by Barry Chamish.

(Barry Chamish is a good, Jewish friend, and a research journalist on behalf of his [God-given] homeland.)

Since 2000, we have been tracking with events in Israel, and who's putting bad pressure and leadership inside Israel and from the US and the UN's participating nations. For years, we have also been searching for honest news sources. Exposing big-oil players in the US who pressure Israel is key to understanding the actual situation. Because those involved in getting Israel to obey UN-Rockefeller-oil dictates are the CFR and oil-company executives in the US government (GH Bush, GW Bush, Cheney, Condi Rice, Bill and Hillary Clinton, Jimmy Carter, George Mitchell), false religious leaders (Joel Hunter, Rick Warren), - just to name a few - and these types have infiltrated and are trying to corrupt and destroy Israel from the inside. Several of the well-known government officials (in Israel and the US) are involved in the schemes and oil deals, and are consistently working to dismantle, or corrupt and take over, the military, justice system, and every politician they can. It's hard to find independent researchers and reporters who have enough information to expose who's doing what and why - Barry Chamish is one of few who have been reporting for over 15 years, exposing what projects are going on in the background and who stands to gain and who's passing out bribes and threats. You can find Barry's in-depth research, here: www.barrychamish.com

As far as daily Israel news, there is good news! We have found a few sites that update regularly, in the last couple of years. These sites are helping in 2 ways: 1) just trying to give the facts, and 2) working to defeat and expose the empty but hateful rhetoric, and just report the facts. We post those sources at about the middle of this update. Also in this update, we will try to explain why their reporting is helpful and more of why the 430+ 'mainstream news' is biased against honorable Israeli citizens.

Discernment: Analyzing the preachers:

First, a note, closer to home: We all know that nobody is perfect, including pastors. With that said, we all need to sort through the facts and find which pastors love God

and which ones love this world, for then we will know who is genuine and who is faking it. We all need to really start checking up on our US pastors. We need to read the verses they read, and make sure their interpretation of those verses is the same as what the Bible says (in context), and work to notice if they skip the hard-to-hear tougher messages. Skipping the strong verses in the Bible is more hazardous than skipping the hard parts of honest news.

The Apostle Paul complemented his hearers who double-checked his use of Scripture: **“These were more fair-minded than those in Thessalonica, in that they received the word with all readiness, and searched the Scriptures daily to find out whether these things were so.”** ~ Acts 17:11 - God commends these dear brothers and sisters in Christ because they studied His Word to double-check the teaching. It takes diligence, but it is the only way to find out if the teaching is accurate, and making sure the teaching is not lukewarm, or twisted.

“Beloved, do not believe every spirit, but test the spirits, whether they are of God; because many false prophets have gone out into the world.” ~ 1st John 4:1

And pastors are charged to: **“Be diligent to present yourself approved to God, a worker who does not need to be ashamed, rightly dividing the word of truth.”** ~ 2nd Timothy 2:15

Many American pastors only act as ‘pastor’ during work hours, but then live like the world in their ‘off hours’, and weekends, when their flock is in the most danger of falling into the devil’s worldly entertainment. What they do in their ‘time off’ prove whether they are a God-honoring pastor or just pretending to be. Does your pastor fills his sermons with history, stories, inspirational quotes and repetition of things you’ve heard him say before, but doesn’t teach fresh Bible verses explaining the **“fear of the Lord”**, daily repentance and obedience, fleeing immorality, witchcraft and idols? Almost all American Christians need to be regularly challenged to not entertain ourselves with the perversion this world calls entertainment. When ‘Pastors’ leave out those and other Biblical essential teachings, then they are not pastors - they just pretend to be.

We need to throw the fake pastors out, and replace them with those who will study diligently to teach God’s Word.

Another good idea is to ask your pastor and friends:

>> ***“Do you support Israel?”***

And, if they answer yes, then we need to follow up with a definitive question:

>> ***“Do you support the peace process?”*** -- (Their answer should be No!!!)

And just to be clear, either way they answer that, follow that up with another question:

>> ***“Do you think that Israel is ‘occupying’ ‘Palestinian’ territory, or that ‘Palestinians’ are occupying Israel’s territory?”*** -- (As the next verses show, God gave that land to Israel. So it’s Israel’s land the Arabs are occupying.)

A quick guide on understanding their answers:

* If they dodge the second and third question, then you know they really don’t support Israel.

* If they show support for the big-oil-money ‘peace’ plan, they just told you they really don’t support Israel - they don’t really believe God’s Word.

* If they say that Israel is ‘occupying’ so-called ‘Palestinian’ territory, then they just told you they can’t read or don’t understand the Bible.

* A real pastor loves God’s truth - but they might need a little help in learning how to help and care for Israel.

* Anyone, especially a leader, who does not hold to God's covenant with Israel has brought a curse on himself, and needs to be noted as having done such. And, we need to call them to repentance. As we are talking with our pastors, we need to keep in mind some recent history. Back in the 1950s, seminaries started to listen to the pressure of the big-money-oil tycoons, and started to remove and ignore key subjects in God's Word. Today, most seminaries don't teach about Israel much at all, but what's strange about that is that roughly 75% of the Bible is either written to the people of Israel or about the people of Israel. We certainly should not dismiss those portions of the Bible. Instead we should be studying to understand them and educate others to join us in doing the same. As we talk with our pastors, we do need to keep in mind that most of them went to seminaries that didn't even mention Israel. So some pastors are genuinely ignorant, while others love this world too much to care or are bribed by criminals in the US government. The pastors who are ignorant yet love God and His Word will appreciate your encouragement to study those passages and learn to rightly divide them. Here are just a few passages we can remind these pastors about.

“Now the LORD had said to Abram: "Get out of your country, from your family And from your father's house, To a land that I will show you. I will make you a great nation; I will bless you And make your name great; And you shall be a blessing. I will bless those who bless you, And I will curse him who curses you; And in you all the families of the earth shall be blessed."

~ Genesis 12:1-3

“And I will establish My covenant between Me and you and your descendants after you in their generations, for an everlasting covenant, to be God to you and your descendants after you. Also I give to you and your descendants after you the land in which you are a stranger, all the land of Canaan, as an everlasting possession; and I will be their God.”

~ Genesis 17:7-8

“Pray for the peace of Jerusalem: ‘May they prosper who love you. Peace be within your walls, Prosperity within your palaces.’ For the sake of my brethren and companions, I will now say, ‘Peace be within you.’ Because of the house of the LORD our God I will seek your good.” ~ Psalm 122:6-9

>> Would you like to prosper? Then find more ways to bless, support, and reach out to the Jewish people with God's love and truth! ~

"For Zion's sake I will not keep silent, for Jerusalem's sake I will not remain quiet,
till her righteousness shines out like the dawn, her salvation like a blazing torch."
~ Isaiah 62:1

Pastor Chuck Baldwin ~ Chuck Baldwin Live

[Hutaree Update \(05-14-2010\)](#) ~ the case is dead. You can find the details in the article below. It's hard to file charges against speech. All humans share a common problem: we all have said things we shouldn't have said. There are many differences between talking and doing. In this clip below, you will see the frustration of the judge at the failure of the prosecution to present a case - proving the case was fake. ~

"With much media fanfare, 9 members of a Michigan militia were arrested last March and charged with 'seditious conspiracy'-specifically, plotting to murder law enforcement officers. Ostensibly, this was supposed to precipitate some kind of wholesale revolt against the government. Question: Have any of you heard anyone from the propaganda press corps (national news media) tell you what has been happening with this case? No? Did you not wonder why? Well, I'll tell you why: the case has fallen apart.

The first indication of the Feds' case going bad was a local report in the Toledo (Ohio) Blade, dated April 28, 2010. 'An FBI agent who led the investigation of nine Michigan militia members charged with trying to launch war against the federal government couldn't recall many details of the two-year probe yesterday during questioning by defense lawyers.'

'Even the judge who must decide whether to release the nine until trial was puzzled.'

'I share the frustrations of the defense team . . . that she doesn't know anything...'

Well, the facts are beginning to come out: The FBI agent who brought the charges against these self-professed militia members made a complete fool of herself under oath in a court of law. She presented zero evidence to indicate that the Hutaree posed an imminent threat to anybody. Now that the judge has released the Hutaree members from jail and rebuked the agent for presenting such inept testimony, we'll see if the Feds decide to pursue the case any further. Again, as Will Grigg said, 'Since the federal case against the Hutaree rests entirely on what was SAID by the suspects, rather than anything specific that was DONE by them, it's difficult to see what's left of it [the case].' I Am Israel - Documentary Film HD Version

http://www.youtube.com/watch_popup?v=ZprVPKi-W6s

Editor's Comments: Isn't it refreshing to see Israel's recent history again? Against all odds, the Israeli people now have a nation and have revived their Hebrew language (that in itself is a miracle). Though the Arabs attacked, God helped Israel to win back their land, and then Jerusalem. And though the Jewish people have been mass-

murdered, lumped together with a few corrupt big-named-greedy types and falsely slandered, the Jewish people's love for others still shows and speaks for itself. I hope you recognize this history - it's true, though the media works daily trying to distort it and rewrite it.

If you love Israel, please share this update - challenging and inspiring more people to join us in supporting the Jewish people. ~ Thank you! ~

Editor's intro: Chances are good that you've probably heard about the 6 boats with 'peace' activists who tried to get to Gaza and how soldiers and civilians got wounded. Well, the real story there is that those on the boat had an agenda and weapons that they used to attack the Israeli soldiers, and the Israeli soldiers defended themselves. Also, this flotilla with 'aid' was not even necessary, because Israel already has roads open to bring in food and medicine, but they don't allow weapons, for obvious reasons. The last thing Israel needs is to give these angry Arabs weapons to use against Israeli forces. It is illegal to give weapons to terrorists, but the 'terrorists' who are working with the global bankers and oil-businessmen are allowed (by the Elites) to get weapons.

Israeli commando who shot six passengers in aid convoy in line for medal

"Six of the nine passengers killed in an Israeli raid on an aid convoy bound for Gaza were shot by a single Israeli commando, who is being considered for a medal of valour for saving his injured comrades as passengers attacked them with clubs, knives and even guns they had taken from downed Navy Seals.

Fresh details of the controversial raid, which has led to accusations of "piracy" and "state terrorism" being levelled against Israel, and which wrecked its strategic partnership with Turkey, emerged yesterday. There were reports that passengers who attacked the Israeli boarding party had been dragging three captured commandos into the hold of the ship when the shooting broke out..."

Editor's comments: The arsenal of weapons that this 'peace' activist group had is shocking. For those who had trouble seeing the video(s), the weapons that these activists had accumulated on this ship (the Mavi Marmara) included many knives (of all shapes and sizes), box-cutters, some swords, steel pipes, wooden rods, gas masks, and bullet-proof vests. These are not tools that a 'peaceful' protestor would need - they obviously had intentions other than peace. ~

Editor comments: Next, this live video shows that one of those 'aid' ships in the flotilla had many on board trained in fighting. The other five boats in the flotilla were peaceful, this one was not. So, that is a brief synopsis of the situation and below, we provide more article links that help all of us sort through the lies and deception from the 'mainstream media' (FOX 'news', CNN, and others).

One thing we can all learn from the reports in this update is to take note whose side the media falls on. Most of them are for oil-money projects and against God's chosen Israel. That should warn us to leave them in their darkness and go find honest news sources.

Editor comments: Now, to effectively stand with Israel, we next need to continue to un-work this 'main-stream media' spin. To start with, let's look at a source that tried hard to report accurate facts and correct media slants on this flotilla event - C.A.M.E.R.A. (Committee for Accuracy in Middle East Reporting in America). The evidence is fairly obvious here, as revealed in this next article. After this article, we'll briefly look at other reports that show other key facts, and expose media's biases to unfairly slander and blame Israel. ~

Editor's Comments: Concerning an incident last week, FOX 'news' said the 'Palestinians' didn't "throw stones". But, the photographs from Reuters and AP and AFP show the truth. Just a week or two ago, Israel was blamed by the world for "using excessive force" against 'Palestinian' protestors who were throwing stones at them. FOX 'News' falsely reported that the 'Palestinians' were 'peace' activists and "didn't have weapon or even throw stones", but the photos caught by other reports show differently. Photos taken by Reuters, AP* and AFP** show these 'peace' activists thrown rocks. The "fair and balanced" 'news' station (FOX) shouldn't lie, but they did here (and it's not the first time). You can see them caught in this lie for yourself, here: www.camera.org/index.asp?x_context=3&x_outlet=15&x_article=1696.

Editor comments: The lies and slander here are thick, as FOX 'news' goes on to mention all of the phony reasons given for why all the Arabs are mad... So, what really happened? Well, FOX 'News' failed to mention the trained thugs (called 'activists) on the boat tried to kill Israeli soldiers who got on board. You can see a photo of one of these supposedly peaceful activist here:

http://blog.camera.org/archives/2010/05/portrait_of_a_humanitarian_act.html#comments

Editor comments: Someone pointed out that the "terrorist organization" IHH is not on the US or UK terror 'watch-list'. So, I researched it and found this statement given by the US State Department on June 2nd 2010:

"US knows IHH (Humanitarian Relief Foundation) representatives have met with senior Hamas officials in Turkey, Syria, and Gaza over the past three years and is greatly concerned. [IHH] Has not been designated as a Foreign Terrorist Organization by the United States. [US supposedly] Cannot validate ties to Al-Qaida." WOW! That's quite a confession. Because, IHH was clearly implicated in what is known as a 'terror' plot to bomb the Los Angeles International Airport, in 1999. That's common news. Even the AP mentioned that one. Here's a clip from their article:

[AP INTERVIEW: Turkish aid group had terror ties](#)

<http://www.google.com/hostednews/ap/article/ALeqM5iYybp27J-O2cobEG7eh2c-q3ORHAD9G3D4Q00>

[Associated Press Balancing Skewed Flotilla Coverage](#)

<http://www.israelnationalnews.com/News/News.aspx/137862>

So, how is the US government handling the IHH?

Well, the short answer - they are ignoring it and working to blame Israel. In addition to these reports list above, I did my own research, and we encourage you to do the same. I searched several US government watch sites for this group, and none of the US government sites called IHH a terror group. Strange.

Also of interest, the 'Turkish Relief Foundation' (IHH) does not even show up on the current site of the 'Southern Poverty Law Center' (SPLC) or their list or map of dangerous people groups, despite the fact that they were charged with trying to blow up the Los Angeles International Airport... That's odd. Because SPLC does list Christians and tea party groups*, but doesn't list a known Muslim 'activist' group. Based on other research, my guess is the reason the US government doesn't list the IHH is because the IHH works with the FBI (or CIA) for government operations, also known as 'false flag' ops. That theory raises more questions than it answers, but I do not know of another plausible answer that includes the facts of our government's tracking and surveillance network with what is publically known about IHH - info that has been available for years.

* [SPLC Publishes Patriot Hit List](#)

Editor's concluding comments: The coordinated news attacks against Israel are deliberate and the evidence proves that. The overwhelming majority of the people in Israel hold to the fact that God gave them the land of Israel, and yet are peaceful and gracious to even their enemies. The news companies that fabricate events and then

blame Israel are blatantly lying. That fact is, even though a majority of the Israeli citizens want what's right, there is an international group of corrupt bankers and oil criminals who bribe, threaten, and manipulate people in the US and Israeli governments, and that is in addition to the criminals that use lying and deceiving to get into office (in US and Israel). These oil tycoons only have one goal - to accomplish their agendas and get their projects built - by whatever means necessary. But, you won't hear those details on the major news stations. Why? Because since 1917, the very wealthy in this country have been buying up news agencies until now they own 430+ news stations, including all of the popular ones today - those who are also known as the 'Main-Stream News'. The facts and patterns show that the US mainstream news is owned and controlled by a group of international oil-businessmen that consistently work to harm the honorable Jewish people in Israel, and smear and slander them whenever possible.

Other good news: the majority of the people in the US do not agree with these greedy businessmen either! But, sadly, many Americans do fall for the repeated rhetoric and lies of 'news' groups like FOX, CNN, MSNBC, ABC, CBS, NBC, and many more. ([Source](#)) The International bankers and their co-conspirators, including: Kissinger, Bush, Mitchell, Netanyahu, Peres, and many more - want to completely remove the honorable Israeli people from Israel and to change Israel into being an international trade show - a 'democracy' without Jewish roots.

As you study the Israeli government carefully, you can find several leaders that secretly go along with oil corruption schemes, including projects that kill the honorable Jews who object to giving more land to Arabs. It's sad, but the evidence is there - we can read it and deny it, or read it and come alongside the honorable Israeli Jewish people. Those Israelis have faith to know that God promised the land to them, so they know it's important to oppose the greedy oil agenda. We are watching prophecy coming to life right before our eyes, and the honorable Israelis need our prayers and support. ~

Articles that show Israel's regular treatment of 'Palestinian' Arabs:

Editor's notes: The Israeli people take good care of everyone, whether they be friend or foe; Jewish or Gentile; refugee, tourist, citizen or paid worker - the Israelis treat them well. The Israelis are also kind to those who live outside their towns as well. And the Israeli soldiers go way out of their way to avoid killing or injuring the Arab civilians that the 'Palestinian' Arabs use as human shields when they attack Israeli soldiers. And, the Israeli medical teams do something amazing every week that most countries won't do for their own people and certainly not for their enemies - Israeli medical teams take good care of the injured - Israelis and Arabs. The Israelis send large regular shipments of food, medical supplies, fuel and other necessities into the areas that the Arabs wrongfully want to claim as their own. Israel is very kind to them. So, as I'm sure you could see above, there is no need for a forceful breaking through of Israel's blockade. It's a public smear attack designed to blame Israel and open the door for future shipments of weapons to the occupying Arabs (called 'Palestinians') so that the so-called 'Palestinians' can fire more weapons at Israel. That is the obvious reason why Israel is blocking weapons from getting into the hands of these Arabs.

The Arab world doesn't have the talent or the news contacts to coordinate world level smear campaigns, but the big American oil-players do. There is plenty of evidence to help us see deeper. Because, the Arabs don't stir themselves up and they can't really train themselves. There is plenty of documentation (including government records) that the US State Dept. and CIA have been training them, including bringing some of these 'Palestinians' onto US soil for 'training' sessions. But, why bring them here? Why train them at all? Because all they do with that training is hurt Israel, right? So, what's going on here? Well, the core of this story and situation goes back to oil companies and military contractors who have contracts that when they are

completed, they can make a lot of money on. One of those contracts is restoring the oil pipeline from Iraq through the Golan Heights to the Mediterranean Sea. However, to build anything on the Golan Heights, these international businessmen have to first deal with their main obstacle - the honorable Jewish settlers, who live in those areas. The plan for that one oil pipeline includes taking the Golan Heights away from Israel and giving it to Syria. The Golan Heights is also high ground for future Arab attacks - it is definitely a territory that Israel should not give up! And we might also note that the Arab nations have already acquired most of the land around this tiny Jewish country. I mean - think about it: the Arabs already took Jordan. And then George W Bush team gave them Gaza, Gush Katif. And now, the tag-team that's following-up is trying to take away Judea, Samaria and part of Jerusalem - to also give to the Arabs, so the building contracts can move forward. See - it's pretty simple: oil money and military contracts. So, where do we fit in? As long as people around the globe stand with Israel - standing with them, defending them, dealing with the global businessmen who seek their harm, then the Israeli people can at least live in somewhat peaceful circumstances. Keep in mind - the oil companies don't own Israel's land. But they want to. So, they won't stop being cold-blooded fighting for their money. But, we don't have to stop either. In fact, God is on the side of the honorable Israelis, fulfilling His many promises to His friend Abraham and his descendants. All we have to do is every day be looking for more ways to stand with and defend Israel against her enemies - the global bankers and their co-conspirators.

So, with that said, the next few articles show how Israel actually treats their opponents, and it's pretty amazing! ~

Editor's comments: Israel National News - Arutz Sheva (Channel 7) - They get some right, and they get some wrong. Some of Arutz Sheva's reporters can analyze the pressures for changes, and I believe they are currently more accurate than most of the popular Israel news sites. Please keep in mind, that sometimes they aren't 'allowed to' report or publish things on some subjects. In 2005, IsraelNN was the major source that helped us track the day by day, and sometimes hour-by-hour events leading to the grievous 'Expulsion' carried out by Ariel Sharon under orders of GW Bush.

[CAMERA - Committee for Accuracy in Middle East Reporting in America](http://www.camera.org)

"CAMERA

Founded in 1982, the Committee for Accuracy in Middle East Reporting in America is a media-monitoring, research and membership organization devoted to promoting accurate and balanced coverage of Israel and the Middle East. CAMERA fosters rigorous reporting, while educating news consumers about Middle East issues and the role of the media. Because public opinion ultimately shapes public policy, distorted news coverage that misleads the public can be detrimental to sound policymaking. A non-partisan organization, CAMERA takes no position with regard to American or Israeli political issues or with regard to ultimate solutions to the Arab-Israeli conflict...

How CAMERA works

CAMERA systematically monitors, documents, reviews and archives Middle East coverage. Staffers directly contact reporters, editors, producers and publishers concerning distorted or inaccurate coverage, offering factual information to refute errors. CAMERA members are encouraged to write letters for publication in the print media and to communicate with correspondents, anchors and network officials in the electronic media. CAMERA's combination of rigorous monitoring, research, fact-checking, careful analysis, and grassroots efforts have had a documented impact..."

Understanding the 'War on Terror'

Editor's intro: To understand more of what's happening in Israel, we need to understand more about the so-called 'War on Terror'. The 'War on Terror' is an 'Elitist' big-money, greedy grab of the world's resources. Their activities, including in Israel, are dangerous to us all. So, here are a number of helpful articles that help us to know the information. These next several articles actually name names, which helps us know who's pulling the strings behind the scenes, so that we can find the information more quickly and not fall for the corporate-media hype. ~

[Fake Terror - The Road to Dictatorship](#)

"It's the oldest trick in the book, dating back to Roman times -- creating the enemies you need.

In 70 BC, an ambitious minor politician and extremely wealthy man, Marcus Licinius Crassus, wanted to rule Rome.

Just to give you an idea of what sort of man Crassus really was, he is credited with invention of the fire brigade. But in Crassus' version, his fire-fighting slaves would race to the scene of a burning building whereupon Crassus would offer to buy it on the spot for a tiny fraction of its worth. If the owner sold, Crassus' slaves would put out the fire. If the owner refused to sell, Crassus allowed the building to burn to the ground..."

Editor's intro: This is a great article! A highlight is how this author makes the excellent point that the "war on terror" is: **"A "war" in which one side is invisible is a fantasy – a pretext to restrict civil liberties, to impose censorship and to deny rights guaranteed to American citizens under the U.S. Constitution."** It's easy to see that, here in America, we are slowly losing our rights - right to protest, right to free speech, right to preach God's Word... But, the good news is that America doesn't need to keep going downhill! All it takes is for honorable citizens to say "No more!", and Christians who will diligently call out to God, purify their lives of things that displease Him, and will work to stop those who are doing evil. Then, we can all work to repair what the evildoers have tried to undo. It's a great article! Here's it is.

The 'War on Terrorism'

"Only when convincing evidence has been made public, and the identity of the attackers established, would it be possible to declare "war" without misuse of language. Until then the "War on Terrorism" will be a propaganda campaign like the "War on Drugs" – a way of disguising the true aims and motivations of those waging this "war", which in this case is that age-old motivation: territorial and economic conquest...

The "War on Terrorism" has three major components:

(1) A propaganda war waged firstly against the American people and secondly against the rest of the people on this planet who have access to TV and newspapers.

(2) A large increase in the powers of surveillance and control exercised by the U.S. federal government over U.S. citizens and residents and in the ability of the government to impose censorship.

(3) The use of American military force (with help mainly from the British), to whatever extent necessary, to gain control of the oil reserves of the Caspian Basin, the mineral wealth of Central Asia and whatever other economic resources in other parts of Asia that the U.S.

[Ed. Specifically, the group of oil and military contractors] wishes to control.

The purpose of (1) [Ed. propaganda war] is to disguise the true nature of (3) [Ed. US military force] by presenting it as the use of military force to protect Americans against future terrorist attacks. The purpose of (2) [Ed. Increased surveillance] is to stifle any protest and dissent from those Americans who are not fooled by (1) [Ed. propaganda war] and who object to (3) [Ed. Increase in use of US military]. Bush, Rumsfeld, Ashcroft & Co. know from the 1960s demonstrations against the Vietnam War that domestic opposition to military aggression abroad can bring that aggression to an end, and they wish to make sure in advance that the same thing will not happen this time.

The American government says that America is "at war" (as if that justifies anything the government wishes to do). But a war requires an identifiable enemy. A war is a war between two or more opposing sides. A "war" in which one side is invisible is a fantasy – a pretext to restrict civil liberties, to impose censorship and to deny rights guaranteed to American citizens under the U.S. Constitution. [Ed. Emphasis added by me]

It is a tool for psychological operations directed against both domestic and foreign populations, for deceiving the American people and others and persuading them to submit willingly to violations of their human rights. (Though one might say that if they do submit then they deserve the enslavement that will come to them.) And in this case, as noted above, the purpose is to suppress any domestic opposition to U.S. military action abroad. And at home; remember that the U.S. military has been used against American citizens before – at Waco..."

[The Oklahoma City Bombing Case Revelations](#)

“...This book is a historical account of an unresolved murder case, the OKC bombing. The case has mainly been solved, but not resolved because those who are now known to have been involved have not yet been brought to justice... The investigations and prosecutions should move forward also because the statute of limitations on a murder case, like the OKC bombing, never expires...”

The public should realize after reading this book that they cannot fully and solely rely on these elected and bureaucratic officials (who are very pro Muslim) to protect them from more criminal actions and terror attacks by Islamic terrorists operating in the US. Once the public believes this fact and understands that their very survival is urgently at stake, then the public can and will likely do more to protect itself. If and when this realization sinks in, the public will be less likely to be easily taken unawares by terrorists...”

[Chertoff Created Terror Pretexts for US Police State](#) (February 21, 2005)

“... Bush and Congress certainly should not have entrusted Chertoff with being the head of the Homeland Security Agency. Chertoff is a grave threat to the lives, welfare and freedoms of the American people.

Chertoff has had a rapid rise to power as an appointee of Presidents HW and GW Bush. First, as a U.S. attorney in New Jersey (1990-1994), then as assistant Attorney General at the DOJ criminal division heading up the investigation of 9-11 (2001-2003), and now, most recently as a federal judge in Philadelphia (March 2003 to present). Chertoff also helped write many of the controversial portions of the PATRIOT Act and other new laws that even conservative Republicans believe are unnecessary police state infringements of the Bill of Rights and Constitutional guarantees of US citizens. Chertoff also was consulted by the CIA about torture and renditions of terror suspects to other countries for torture.

This report presents a study of Michael Chertoff's role in the 1993 WTC bombing, the OKC bombing and the 9-11 terrorist attacks as well as Chertoff's coverup of FBI and DOJ foreknowledge and provocation of these attacks. The information in the report strongly implicates Chertoff in intentionally helping create and provoke these terrorist acts and terror funding in order to provide a pretext for much of the controversial police state provisions in laws which Chertoff has helped write..."

[Are Americans Blackmailed With "Imminent Terrorism"?](#) (August 6, 2007)

"...Given the latest intelligence reports of Iraqi insurgents being smuggled in for AlQaeda attacks in the US... The FBI has said there are Iraqi terrorists sleepers already here who came to the US after the first Gulf War.

So why aren't Bush and Chertoff enforcing the borders against illegal aliens that include AlQaeda and Taliban suicide terrorists and Iraqi insurgents that AlQaeda says they want to use to attack the US?

So why is Bush persecuting US Border patrol agents who do their job to protect our borders?

So why is Bush trying to lure US Border Patrol agents to Iraq by offering them more money to go to Iraq rather than police US borders against Iraqis, AlQaeda and Taliban being smuggled in to the US?

So why has Bush already halving and then eliminating by 2008 the numbers of National Guard troops sent to protect the US border with Mexico? See [Guard numbers on border to be halved \[end entirely by Sept. 2008\]](#)...“”

[28 Pages \(missing\)](#) (August 2, 2003)

“There's a lot more in the 28 pages than money. Everyone's chasing the charities,” says this official. “They should be chasing direct links to high levels of the Saudi government. We're not talking about rogue elements. We're talking about a coordinated network that reaches right from the hijackers to multiple places in the Saudi government.”

This week, Saudi Foreign Minister Saud Al Faisal flew to Washington for a hastily convened meeting with President Bush. Faisal publicly demanded that the 28 pages be declassified, but he had to have known in advance, and welcomed the fact, that his request would be denied--ostensibly friendly nations don't normally send their foreign ministers to meetings halfway around the world to be surprised. For his part, Bush has insisted that revealing the 28 pages would compromise “sources and methods that would make it harder for us to win the war on terror.” But the chairman and vice-chairman of the Senate Intelligence Committee at the time of the joint inquiry, Florida Democrat Bob Graham and Alabama Republican Richard Shelby, rejected that argument, contending that perhaps only 5 percent of the 28 pages would compromise national security if made public...”

<http://www.libertypost.org/cgi-bin/readart.cgi?ArtNum=20060>

Editor comments: These senators (named in the article above) all seem to be bought out now, which is sad. However, many in the US public have not lost track of this and are still pursuing this very important issue - one that would completely stop all terror attacks. Why? Because tracing the money would lead right back to the individual, international banksters who are working overthrow the whole world, one way or another, and bring it all under their control. And no, this isn't a conspiracy theory, for it is back up with many facts - theories are hypothesis. However, when there's sound evidence, the theory becomes a fact that we can then investigate. Some of these meetings between the global bankers date all the way back to the late 1600s. The good news is we can stop them, if we care to step up, ask questions, and accept reality, and then accept our responsibility to pursue justice on all the criminals involved - giving each the proper punishment compared to their crimes. Will you join us? We know many will. Do you know someone else who needs to see this? Please share this with all of your friends! Thank you! -
